Situated on a five-acre green campus in Lekawada, Chaitanya offers holistic education from Nursery to Class XII – balancing academic rigour with care, creativity and character. The Chaitanya Parivaar: teachers, parents and management that works together to help every child grow with confidence, curiosity and compassion.

"Our aim is not to create achievers alone, but people who understand the joy of learning and the responsibility that comes with it."

Pedagogy

The Chaitanya Way of Learning

Learning at Chaitanya is a dynamic, child-centred process that nurtures curiosity, independence and empathy. We believe that learning happens best when children explore, ask questions, make connections and reflect on experiences. Teachers serve as facilitators, guiding learners through discovery and helping them apply knowledge in meaningful ways. The approach integrates academics with life skills, arts, sports, and values to ensure holistic development. Each child's pace, interests and strengths are respected, creating space for confidence and creativity to thrive.

Education is not instruction. It is illumination.

Teaching Methodology

Teaching at Chaitanya is rooted in the belief that every child learns best when learning is meaningful, engaging and connected to life. Our classrooms promote dialogue, exploration and creativity. Lessons blend concept clarity with skill-building, using varied methods – experiential activities, collaboration, reflection, and real-world application. Teachers encourage questioning, reasoning and curiosity, helping students evolve into confident learners.

We learn together— with trust, respect and joy.

Curriculum and Streams
